

APPENDIX:

The Appendix includes the following item(s) :

- a new or amended Abstract of the Disclosure
- a Replacement Sheet for Figure of the drawings
- a Substitute Specification and a marked-up copy of the originally-filed specification
- a terminal disclaimer
- a 37 CFR 1.132 Declaration
- a verified English translation of foreign priority document

ABSTRACT OF THE DISCLOSURE

A method and device for detecting defects of an electromagnetic protection for an electric harness (H). The device (D) includes elements (M1) for generating stimulating electric signals, elements (M2) for bringing the signals up to a predetermined power level, elements (M3) for applying the signals to the harness (H) and generating an electromagnetic field, elements (M4) for converting the electromagnetic field into thermal field and elements (M5) for detecting a rise in of temperature at a point of the electromagnetic protection defect (DF) .
